

# Flower Boots

You'll Need:

- \*Old Boots
- \*Flowers
- \*Potting Soil

You know those old boots that you never wear, but hate to throw out. Give them to your mom's garden. Boot Planters are a really cool way to use your old barn boots/rubber boots/cowboy boots.

Step 1:

If your boot doesn't already have a hole in the bottom, poke 2 or 3 of them in the sole for drainage.

Step 2:

Fill the boot with potting soil.

Step 3:

Plant your seed or plants in the top of the boot.

Step 4:

Fertilize and water on a regular basis.
